DIAMOND SPECTACLES.

These Spectacles are manufactured from "MINUTE CRYSTAL PEBBLES" melted together, and are called DIAMOND on account of their hardness and brilliancy. It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye, because of their polarizing light. Having been tested with the polariscope, the diamond lenses have been found to admit fifteen per cent. less heated rays than any other pebble. They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a brightness and distinctness of vision not before attained in spectacles.

Manufactured by The Spencer Optical Manufacturing Company, New York. For sale by responsible agents in every city in the Union. H. A. HEATH, & CO., Jewelers and Opticians, are Sole Agents for Newport, R. I. From whom they can only be obtained. No peddlers employed. Do not buy unless you see the trade

Newport Daily News.

THURSDAY, JUNE 5, 1873.

One of the most remarkable illustrations of the mysterious line that separates the deadly and the wholesome in nature is given in the English Medical Press, which states that the poison of the cobra, the most venomous of the East India serpents, has been chemically analyzed, giving the following result: carbon, 46; nitrogen, 13; oxygen, 6; sulphur, 25; the rest hydrogen. This is exactly the composition of beer yeast. The latter is used in manufacturing the staff of life, bread; the former is so deadly in its nature that even when taken from the snake and preserved, and afterward injected under the skin of animals, it is immediately fatal. The laboratory of nature is far more wonderful than that of the human chemist.

GET YOUR PRINTING done at the News Office.

Newport Daily News.

THURSDAY, JUNE 5, 1873.

Our friends will confer a favor, by sending us facts of any matter of local interest which may come to their knowledge.

Correspondence concerning matters of public interest will be inserted, but we do not hold ourselves responsible for opinions expressed in such communications. All manuscript must be accompanied by the name and address of the writer.

We call especial attention to an advertisement in another column of the Massachusetts Horticultural Society; of a magnificent show of rhododendrons to be held in a tent on Boston Common. This exhibition will amply reward any lover of flowers for a trip to Boston. In addition to the rhododendrons there will be a display of some of the first palms and kindred plants.

When the Boston Globe announced that Mr. A. D. Small had been elected Superintendent of public schools in Newport, we didn't think it worth while to make any correction, but as our nearer neighbor, the New Bedford Standard, goes to the Globe for its Newport items, the spirit moves us to explain that Mr. Small's election to the superintendency of our schools occurred two years ago. The schools which Mr. Small is going to superintend hereafter are those in Salem, Mass.

There are some deluded men who think that woman can't do business. They think that a woman isn't good for anything but to cook a man's food or to keep his clothes in repair. But a greater mistake was never entertained. Why, if women had a fair chance on Wall Street, they would make the bulls and bears look pale. The last case of feminine financial ability is from the West. An Iowa woman lost her husband a few years ago, and during her absence at the funeral her house burned down. She married again, however, and while attending the burial of her late husband, recently, the family house again burned down. That woman understood all about business. She appreciated both life and fire insurance, and she knows how to realize on both at the same time. She must have quite a nice little property now, and will doubtless marry again, but we would advise husband no. 3 not to have his life insured.

THE ENGLISH CHURCH.

Certain benevolent people in England headed, nominally at least, by the Princess of Wales, and the Princess Louise, are trying to raise a fund from which the salaries of all clergymen who receive less than £200 a year shall be raised to that amount. The church is so rich that it seems to a stranger as if there could or should be no need of such a charity fund. There are twenty-eight bishoprics, beside many lower positions, that are munificently paid. An English bishopric is almost as profitable annually as an American Custom House collectorship, and it has the very great additional charm of permanency. Several of these ecclesiastical lordships are worth £12,000 or £15,000 each per annum. If these immense revenues could be reduced to within reasonable limits, every country rector in the land might have a handsome income. But any such process of leveling down would be so distasteful to the great church dignitaries and their friends that it will never be attempted, at least it will not for many years. And hundreds of clergymen will have to continue on beggarly pittances unless some charity fund is established.

The following from the Graphic will be read with interest:

A balance sheet of the revenues and expenditures of the Church of England, recently issued, gives some interesting facts relative to its financial operations. The membership of the Church is about 12,000,000. The average annual receipts are over $50,000,000, derived from the following sources: Endowments, $21,000,000; State aid, $2,500,000; parochial collections, $16,000,000; and miscellaneous contributions and receipts, $10,500,000. This sum is expended as follows:— Maintenance of the clergy, $20,500,000; education of the poor, $15,000,000; church institutions, foreign missions, church building, &c., $14,500,000. Under the head of clerical maintenance, the 2 Archbishops, 26 Bishops, and 70 Archdeacons received $092,780. There are 30 deans, 127 cannons, 120 minor canons, 600 singers, and others, who cost $1,080,025. In addition to these there are 13,041 rectors and vicars, and 5,806 curates, whose services amount to $14,730,255, or an average salary of $840 apiece.

A Danbury man named Reubens recently saw a statement that counting one hundred when tempted to speak an angry word would save a man a great deal of trouble. This statement sounded a little singular at first, but the more he read it over the more favorably he became impressed with it, and finally concluded to adopt it. Next door to Reubens lives a man who has made five distinct attempts in the past fortnight to secure a dinner of green peas by the first of July, and every time has been retarded by Reubens' hens. The next morning after Reubens made his resolutions this man found his fifth attempt to have mis-carried. Then he called on Reubens. He said:

"What in thunder do you mean by letting your hens tear up my garden?"

Reubens was prompted to call him a mudsnoot, a new game just coming into general use, but he remembered his resolution, put down his rage, and meekly observed:

"One, two, three, four, five, six, seven, eight—"

Then the mad neighbor who had been eyeing this answer with a great deal of suspicion, broke in again.

"Why don't you answer my question, you rascal?"

But still Reubens maintained his equanimity, and went on with the test.

"Nine, ten, eleven, twelve, thirteen, fourteen, fifteen, sixteen—"

The mad neighbor stared harder than ever.

"Seventeen, eighteen, nineteen, twenty, twenty-one—"

"You are a mean skunk," said the mad neighbor, backing toward the fence.

Reubens' face flushed at this charge, but he only said:

"Twenty-two, twenty-three, twenty-four, twenty-five, twenty-six—"

At this figure the neighbor got up on the fence in some haste, but suddenly thinking of his peas, he opened his mouth:

"You mean, low-lived rascal, for two cents I could knock your cracked head over a barn, and I would—"

"Twenty-seven, twenty-eight," interrupted Reubens, "twenty-nine, thirty, thirty-one, thirty-two, thirty-three—"

Here the neighbor broke for the house, and entering it, violently slammed the door behind him; but Reubens did not dare let up on the enumeration, and so he stood out there alone in his own yard, and kept on counting, while his burning cheeks and flashing eyes eloquently affirmed his judgment. When he got up into the eighties his wife came to the door in some alarm.

"Why, Reubens, man, what is the matter with you?" she said. "Do come into the house."

But he didn't let up. She came out to him, and clung trembling to him, but he only looked into her eyes, and said:

"Ninety-three, ninety-four, ninety-five, ninety-six, ninety-seven, ninety eight, ninety-nine one hundred—go into the house, old woman, or I'll bust ye."

And she went.

NEW ENGLAND NOTES.

St. Thomas (Episcopal) church of Taunton is to be reslated, frescoed, and supplied with gas fixtures, at an expense of $6000 or more. This beautiful edifice will then only need to have its contemplated tower erected to make it one of the finest churches in New England.

Humphrey R. Crapo, of New Bedford, caught a grey eagle yesterday morning in a steel trap near Sulphuit Pond, Rochester, and another in the afternoon. They were only very slightly injured on the toes, and he had them in this city in a box today.

John Holland, marble worker, in New Bedford, while standing on the thill of a wagon lifting a piece of marble this morning, lost his balance by the horse starting, and fell backward over the wheel with the marble on him. His injuries are painful, the ligaments joining two ribs to the spine being badly strained.

A gang of youthful railroad thieves has been broken up at New London, Ct. Over $500 worth of freight has been stolen by them from the Northern Railroad station.

A Bridgeport, Ct., man has made all the black and tans in that town feel ashamed of themselves. He recently despatched ninety rats that he found in an old meal chest.

The original flag that floated over Fort Sumter when first attacked by the rebels, was an interesting feature in the procession of the G. A. R., Decoration Day in Stamford, Ct.

Mr. Junius H. Lucas of Middletown, Ct., the person who brought a suit last winter against a young widow to get back money spent while courting her, was married last Sunday.

Speaking of the postal-card difficulty, the Springfield Union says, "Mr. E. Morgan, of the Morgan Envelope Company, returned from Washington Saturday night, but owing to the absence of the postmaster-general and his third assistant from the capital, was unable to effect the arrangements which he anticipated for resumption of work on the postal cards. The manufacturer of the card paper was in town today, and a better quality of card board will soon be secured from him or from other parties, in order that the interruption of the printing may be as brief as possible."

A suit has been brought against the city of Portland by one Morse for $30,000 damages on account of the alleged non-fulfilment of a contract on the part of the city on the much talked of marginal way.

Littleton, N. H., boasts of a snow bank which measured on the 22d of May one hundred feet long and three feet deep. The drift was on the southeast side of a hill where the sun shone on it until 5 P. M. Just over the fence there were four hands planting potatoes.

The Government now have twelve members of the signal corps on the line of the Mount Washington Railroad, at four stations, as follows: Ammonoosuc, Waumbeck Station, and on the Summit. Great importance is attached by the Government to the coming reports from this quarter.

A plaster cast of a megatherium has been set up in Culver Hall, Dartmouth. It is 18 feet long, and is being mounted with unusual care. A cast of the Indian turtle, 8 feet long by six feet wide, one of the glyptodon, 17 feet long, and the head of an elephant, 10 1-2 feet long, will be set up within a fortnight. These casts are all made at Professor Ward's establishment in Rochester, N. Y. Professor Henry Fairbanks of St. Johnsbury, Vt., has recently presented 1000 insects to the State Museum.

There is, it is said, considerable talk among Fall River mill owners of running on half time after the first of July. The cotton market is dull, the demand being barely sufficient for the immediate supply.

Two Italians were arrested in Springfield the other day, for peddling without a license. As they hadn't money enough to pay their fines, the State constables kindly allowed them to make further illegal sales to make up the amount.

Two attempts to create incendiary fires at Fall River were discovered and frustrated, without alarm, Sunday evening. The buildings experimented on were the Unitarian Church and Borden, Almy & Co.'s furniture and coffin warehouses.

Three whalers, the barques Stamboul Lagoda and Mermaid, arrived at New Bedford, Sunday. All had made fair voyages. The arrival of three whalers in one day is an unusual circumstance nowadays, and reminds New Bedford of her former greatness.

New Haven ran up her quarantine flag among the oyster beds of the harbor, Saturday, in accordance with a regulation which went into effect for the first time that day, and by which the examination of all vessels from foreign ports is made the first business of the visiting physician of the board of health.

Thomas S. Gibson of Rutland, Vt., charged by Edwin S. Ostigee with hiring the latter to burn a house in Middlebury, was discharged on examination, Saturday.

The depot, water house, and wood shed, of the Vermont Central Railroad, at Bolton, were destroyed by fire Saturday afternoon, together with a quantity of four-foot wood in the shed.

Enos Gould, a Bennington, Vt., teacher, is in trouble. The larger girls and bigger boys of his school have been getting over much "spooney" lately, and ten page billet-doux monopolize the time that should be devoted to study. An attempt to stop these proceedings resulted in a row between "the big boy" and the teacher, from which the latter retired with a black eye, the sweet dulcineas meanwhile jumping through the windows in the most unladylike manner. The authorities are looking for a teacher with muscle.

The first summer arrival at Stockbridge from the city is that of David Dudley Field of New York.

A French boy was run struck on the bank of the river, at Holyoke, Sunday, and it is not thought he can recover.

The Vermont & Massachusetts Railroad Company has laid over five hundred tons of new rails on its line, this spring.

—A grand concert will be given in this city at the Opera House next week, by Misses Finkenstaedt, Fairman and Liebe. Miss Fairman is the noted English contralto, Miss Finkenstaedt is well known to Newporters as a pianist and Fraulein Liebe is considered one of the finest violinists in the world. Announcement of evening of concert will appear tomorrow.

SCHOOL COMMITTEE.—The school committee met yesterday afternoon, and elected Mr. Thomas Coggeshall chairman. Mr. Thomas H. Clarke sent in his resignation as principal of the Grammar School, but the Committee declined to accept it, and instead, granted him a leave of absence during the time that he should act as superintendent.

A SERENADE.—The Phœnix Hook & Ladder Company will testify their elation over the re-election of Mr. Henry W. Cozzens, a member of the company, to the position of Chief Engineer, by serenading that gentleman tomorrow night. The Newport Band will furnish the music, and the city government, the officers of the department, and of the engine companies and the delegates to the late firemen's convention, will form the audience. There is no doubt but that everybody concerned in the affair will have a splendid time.

BASE BALL.—A match game was played on Monday last, between the 2nd Nine of the America's and the 1st Nine of the Saratoga's with the following result:

LAW SUIT.—John Waters & Co., wreckers of this city have brought a suit against Alfred Day and others of Providence, in the Supreme Court, for the value of the services of the former in saving a cargo from the schooner Estelle Day. The plaintiffs are owners of the wrecking schooner "Gloucester," and contracted with the defendants to get off the vessel and deliver her upon the marine railways of this city, and the coal upon Commercial Wharf, and to receive for their services 40 per cent. of the net value of the vessel and cargo. Subsequently, however, the contract was changed and the plaintiffs agreed to take her to Providence and deliver the coal upon Manchester & Hopkin's wharf, which they did. The plaintiffs allege that in the settlement of their claim on the schooner, a dispute ensued, and hence they have brought suit to recover $693 being 40 percent of the value of the cargo of 225 tons of coal and the vessel.—Widgate Hayes for plaintiffs, B. N. Lapham, for defendants.

Seasonings.

Brantford Point is historical. Everybody cuts initials in the trees, and they never grow.

Several new cottages have been built at Narragansett—which now boldly asserts itself to be Newport's rival.

Better and more extensive accommodations will be afforded this year at Long Branch and Cape May than before.

About this time, look out for the sea monster annually seen off Cape May. He is due from May 31 to the 1st of July.

Crushing Island is a place annually resorted to by the "upper ten" of Portland, Me., It is a painfully fashionable place.

Roger William's Cornet Band is announced to give a series of "grand concerts" at Narragansett, during the fashionable season.

A feature of the season at Newport, calculated to please the fair sex, will be a series of matinee dansantes at the Ocean House.

It is probable that one or more New Jersey regiments will hold an encampment at Long Branch during the month of August.

Babylon, L. I., has a new and commodious house, called the Watson House. The Seventh will hold an encampment at Babylon in July.

Pretty country girls are employed as waiters at some of the Narragansett hotels, but they are terribly high-toned and aristocratic.

Stowe, Vermont, is a pretty summer retreat.

The season at Niagara Falls will begin in June.

Bay Ridge, Long Island, is growing in favor as a watering-place.

Atlantic City is a fierce rival of Cape May; so says a correspondent of a New York journal.

Mount Desert Island and the other resorts of Maine promise to be more largely patronized than usual this summer.

A correspondent of a Massachusetts journal, writing from Martha's Vineyard, says: "The extent to which Gothic architecture has been employed in the styles of most of the cottages built the past two years has been the subject of much remark. Nearly all the new cottages put up this season are to have square doors and windows, and already we have some very elegant ones, in fact far eclipsing any of the former in the Gothic style. A few have been modelled after the Swiss architecture, and in making up the variety mingle in nice order." The season at this famous place will begin at an early day.

The opening of the Long Branch season is at hand, and already some of our wealthy citizens are fleeing thither from the heat and dust of the city. The hotel-keepers are preparing to receive their expected guests, and anticipate and busy a prosperous season. Reference to an advertisement elsewhere will show that Messrs. Charles and Warren Leland will open the Ocean Hotel, one of the best hotels at the Branch, on Saturday next. The Leland brothers are two well known as skilful caterers to need any further recommendation than the mention of their names.

The most attractive part of the St. Lawrence River is that which includes the so-called "Thousand Islands," numbering in reality about eighteen hundred. Well's Island (much the largest of all) and two or three others are under cultivation. Well's Island is about ten miles in length and contains eight thousand acres. Near and around it are thickly clustered very many of the smaller islands. With the exception of an occasional bare rock which rises in gray, grim contrast to its leafy sisters, these islands are all covered with various kinds of trees and bushes, deciduous and evergreen. The village of Alexandria Bay (overlooking the river and a little bay), with a population of about five hundred, is the natural point of departure to the islands, a thousands of which are within five or six miles of the place, and hundreds in near proximity to it, dividing the river into a multitude of winding channels, small and large, and moulding it into tiny bays and coves, affording romantic retreats which are the delight of boating parties.

Well's Island terminates about two miles below. Last year the lack of good and sufficient hotel accommodations at Alexandria Bay, and the promising future of the place as a summer resort attracted the attention of Messrs. O. C. Staples and C. A. Nott, of Watertown, who, after proper consideration, resolved to prepare for the coming and future season of visitors. To aid their important undertaking, Messrs. Cornwall & Walton presented them with a sight for a hotel, to which additions were made by purchase, and the projectors went to work. The building rose rapidly, and it soon became apparent that their promise to have it finished, ready for guests, by the commencement of the next fishing season, would be fulfilled. This "Thousand Island House," as it is called, which will hereafter give accommodations to those who go to the Islands, commands the finest views of the river in both directions, and most of the favorite islands and island groups may be seen from its lofty tower.

Cape Ann, it appears, will be well patronized as a summer resort during the coming season. A correspondent of the Boston Globe, writing from "Pigeon Cove," says: "The public houses here, although they are not to be opened until the first of June, are being put in proper condition for those who may wish to become guests. Quite a number of rooms have already been engaged for the months of July and August, but not as yet a single customer for the days of June and September, which are here as well as elsewhere, as we know from long experience, the two serenest and pleasantest months of all the year. This makes most of the hotels over-crowded, involving oftentimes much discomfort, and a rate of charges that, owing to the brevity of the season, proprietors are obliged to make in order to live. Take this delightful neighborhood, for instance, as we have often seen it in the leafy month of June, with its woods, pastures and fields filled with the fragrance and beauty of its wild roses. If the object in leaving home for awhile during the hot season is for pleasure or comfort, or for benefit of health, June is a better month than July or August in which to accomplish that purpose."

News Items.

Train has been discharged and has gone to Europe.

Gen. Cabrinetsy, in command of the Government troops, has defeated 800 Carlists under Seballos. Gen. Valles has ordered the suspension of a railway traffic in the province of Valencia under the pain of death.

A letter from the Fiji Islands states that the mountain savages killed a family of whites named Burns and some Polynesian laborers, altogether sixteen whites, whose bodies were found horribly mutilated. Some of the bodies were carried away for a cannibal feast.

The Secretary of the Treasury has directed the Assistant Treasurer in New York to give notice that during the month of June he will purchase $500,000 in bonds on the first and third Thursdays each, and $1,500,000 on the second and fourth Thursdays each. In all he will sell $7,000,000 of gold and purchase $1,000,000 in bonds.

A vessel was recently loaded with 50,000 bushels of corn, from a Chicago elevator, in less than two hours.

The Juniata, it was rumored, would sail for San Domingo the latter part of this week. There seems to be some mystery concerning this vessel's movements, or rather the duty to which she is to be assigned. First she was fitted for deep sea sounding, etc., then for the trial of torpedoes; next she put into New York and her sounding apparatus and material were sent ashore, for reasons explained in last week's Journal. The Juniata has lost twenty-five or thirty of her crew by desertion since her stay in New York, and unless she leaves this station very shortly she will have to remain here for a considerable period, as it is difficult to obtain recruits for the vessels fitting out for foreign service, let alone filling out the complement of men for a vessel whose crew has once been furnished.

The Pall Mall Gazette gives currency to the following from the pen of the Rev. J. W. Brooke, late vicar of St. Mary's, Nottingham, England: "A certain clergyman died in a certain diocese toward the end of the year 1871. This clergyman had appointed as his executors a brother, who is an admiral in the British navy, together with a friend of this brother, also an admiral of high standing. The executors, on examining his papers, found a parcel indorsed, "Inviolably sacred. To be destroyed." The parcel contained two documents—one a dispensation from the pope, permitting the deceased to retain his position as an Episcopal clergyman, though actually a Catholic priest; the other a list of such of the clergy in his diocese, or near him, as are likewise possessed of dispensations."

Crippled Constitutions.

It is difficult to ruin a strong constitution. To weaken, injure or cripple this source of physical vigor and endurance is an easier task, and may always be accomplished by positively disregarding or violating certain hygeian laws, the observance of which is essential to the well being of the body and to the sustainment of that vital force by which it is animated and supported. But a good constitution is wonderfully elastic, and even after it has been very hardly dealt with by its possessor, all its pristine vigor may be recovered if the proper course of treatment is adopted. Hostetter's Stomach Bitters may be justly denominated a constitutional tonic. Not only does it improve the appetite, stimulate the stomach, tone and regulate the disordered liver and bowels and steady the trembling nerves, but it also (and this is its most important effect) restores the stamina strength of the system, where it has given way under the pressure of excessive labor, exposure, privation, acute disease, fast living, a foul atmosphere, extraordinary heat or any other cause. In summer the constitution is often severely tried by a long continuance of hot weather. Nothing tells more heavily upon the sources of vital activity than solar heat, and hence the expediency of forearming and replenishing them with a wholesome, vegetable tonic, like Hostetter's Bitters, during the summer months.

CLASTER POWDERS,

For Horses, Cattle, Sheep and Swine.

THESE Powders have been used for three years with great success, and the undersigned would call the attention of the public to the fact that there is nothing that excels them for the cure of worms, kidney complaint, loss of appetite, coughs, colds, and leaves the system, in all cases, in a healthy condition. It is well to give a powder occasionally to animals that do not appear to be unwell, as it prevents the accumulation of worms and prevents internal diseases. Please see circulars for all particulars. For sale at Travers' Block, Mason's Store, 199 Thames Street, and R. J. Barton. mar3

CONSUMPTION CAN BE CURED.

SCHENCK'S PULMONIC SYRUP,
SCHENCK'S SEAWEED TONIC,
SCHENCK'S MANDRAKE PILLS,

Are the only medicines that will cure Pulmonary Consumption.

Sometimes medicines that will stop a cough will often occasion the death of the patient. It locks up the liver, stops the circulation of the blood; hemorrhage follows, and in fact, clogging the action of the ordinary organs that caused the cough.

Liver complaint and dyspepsia are the causes of two-thirds of the cases of consumption. Many are now complaining with a dull pain in the side, the bowels sometimes costive and sometimes too loose, tongue coated, pain in the shoulder blade, feeling sometimes very restless, and other times drowsy; the food that is taken lies heavily on the stomach, accompanied by acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach or a torpid liver. Persons so affected, if they take one or two heavy colds, and if the cough in these cases be suddenly stopped, the lungs, liver and stomach clog, and remain torpid and inactive, and before the patient is aware of his situation, the lungs are a mass of sores, and ulcerated, and death is the inevitable result.

Schenck's Pulmonic Syrup is an expectorant which does not contain any opium, nor anything calculated to check a cough suddenly.

Schenck's Seaweed Tonic dissolves the food, mixes with the gastric juice of the stomach, digests easily, nourishes the system, and creates a healthy circulation of the blood. When the bowels are costive, skin sallow, and the patient is of a bilious habit, Schenck's Mandrake Pills are required.

These medicines are prepared by Dr. J. H. SCHENCK & SON, Northeast corner of Sixth and Arch streets, Philadelphia, Penn., and for sale by GEO. C. GOODWIN & CO., 38 Hanover street, Boston, and John F. Henry, 8 College place, New York, Wholesale Agents.

For sale by Druggists generally.

Newport Daily News.

THURSDAY, JUNE 5, 1873.

GENERAL NEWS.

NEW YORK CITY.

NEW YORK, June 4.—The state of public feeling in relation to young Walworth, and his crime yesterday, is rapidly changing, and the sympathy and extenuation which at first followed the tragedy is giving place to a popular demand for justice and a strict enforcement of the laws. No tributes are paid to the life or character of the victim, but they are no longer suggested as justifying the murder.

THE POLICE.

Police Commissioner Duryea has received authority to make official application for 250 muskets of the latest model, with which to arm the police in case of emergency. General Duryea says he intends to have the men thoroughly drilled in the use of arms, and then to lead them himself in case of riot.

STOKES'S CASE.

Stokes said this morning that first-class lawyers outside of his own council have informed him that the court of appeals would decide in his favor at least twelve of the thirty-four exceptions, either of which would secure him a new trial. He says he is full of hope.

FROM WASHINGTON.

WASHINGTON, June 4. The statement was made to the President by a Central American delegation that the English government, which has certain concessions upon the coast in cutting timber, had for some time past exceeded all rightful limits and was encroaching largely upon the rights of the local government. The President was informed that one object of the delegation in stopping here on the way to England to protest against these encroachments, was to ascertain whether the United States would be disposed to tolerate such interference in case it became marked, or whether they would be governed by the Monroe doctrine. The President in reply gave the delegation to understand that the United States would look with strong disfavor upon any interference by European powers with the affairs of nations on this continent to the south of us.

MISCELLANEOUS.

NEWBURYPORT, June 4.—This morning between 4 and 5 o'clock, the building next below the custom house; known as the Mooney Block, was destroyed by fire. The contents to some extent were removed. The building was occupied by George W. Blake, produce dealer, and J. B. & E. Knight' millers. One-half of the building was fully insured. Messrs. Knight lose some $12,000 on stock and on the building. The next building was damaged, but will be immediately repaired. Some of the stock was also injured.

PHILADELPHIA, June 4.—John Brown & Sons' cotton mill, corner of 8th and Mountain streets, was destroyed by fire at 1.30 o'clock this morning. Much new machinery had been put up in the mill and the loss is about $200,000.

CONCORD, June 4.—Both houses of the legislature were organized today by the choice of the nominees of the republican caucuses in the senate. Hon. David A. Warde of Concord is president, Luther S. Morrell of Concord, clerk, and Taylor Westgate of Haverhill, assistant clerk. The officers of the house are: Speaker, Hon. James W. Emory of Portsmouth; clerk, Samuel C. Clark of Gilford; assistant clerk, Charles C. Danforth of Concord.

BOYLES CAMP, TULE LAKE PENINSULA, June 2.—Before night, Captain Jack, the murderer of General Canby, and Schonchin, Commissioner Macacham's would be murderer, were ironed together and placed with the other warriors under guard. Neither Captain Jack nor Schonchin spoke a word. Scarfaced Charley protested against the indignity in behalf of his fellow captives. He obtained but little satisfaction and retired in disgust. The usual Sunday evening services of the Warm Spring Indians were dispensed with. Instead they had a glorious war dance until midnight. They leaped and howled about the fire and indulged in other frantic demonstrations of delight.

FORT HOPE, ONTARIO, June 4.—While a train containing Lent's circus and menagerie was coming south on the Midland Railway today, seven cars ran off the track.—The circus was damaged to the extent of $10,000. A man named White, of Belleville, was instantly killed, and it is thought that another named Robinson, of Hamilton, was fatally injured. The animals were uninjured.

FOREIGN INTELLIGENCE.

BAYONNE, June 4.—The Carlists appeared before Irun today and began an attack on the place. At the last accounts they had taken forty carbineers prisoners.

PARIS, June 4.—Despatches from the Spanish frontier report that a battle is in progress today between the Carlists under Donegara and a force of 1500 republican troops. The result is unknown.

ANNOUNCEMENT.

OUR annual hand-book to Newport will be issued shortly, for the season of 1873.

The character and value of the book is so well known that a description is unnecessary. A convenient map of the city and island will be added to its other attractions the present season. We consider this an unequalled medium for those who desire to reach directly the summer visitors. Advertisements will be inserted on the same terms as formerly. We desire that cards be handed in at once as we shall go to press immediately. There are now some choice positions, which may be secured if applied for at once.

THURSDAY, JUNE 5, 1873.

Mr. Houzeau says, "The mule is supposed to be able to count as far as five, at least; and this is considered to be established by the following observation: There is a short branch line of omnibuses in New Orleans, where each mule makes the journey five times successively before being changed. The veterinary surgeon of these animals called attention to the fact that at the end of each of the first four journeys, they are silent; but, as they approach the end of the fifth they neigh."

AMERICAN AND FOREIGN PATENT

R. H. EDDY

SOLICITOR OF PATENTS,

For Inventions, Trade Marks, or Designs,

No. 76 State St., opp. Kilby St. Boston

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of Inventions.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.

CHARLES MASON, Commissioner of Patents."

"*I have no hesitation in assuring inventors that they cannot employ a man more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

"Mr. R. H. Eddy has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHN TAGGART."

New York Patent Carpet Renovating Co.

ARE now ready to receive orders at their office. Carpets cleaned and restored to their original beauty and brightness, without removing the same from the floor

CERTAIN AND INFALLIBLE.

The process by which this extraordinary result is obtained is one of the most important revolutions in DOMESTIC ECONOMY.

However soiled your Brussels, Velvets, Wilton, Axminster, Mcquet, Ambusson, and other carpets or Rugs may be; be they covered with Dust, Dirt, Grease, or Coal Smoke, with this process, the same can be made clean and bright and apparently as new as when delivered from the hands of the manufacturer.

THIS GREAT DESIDERATUM

Is obtained without removing the carpet from the floor, or requiring the removal of furniture from the room, a convenience which every Housekeeper will appreciate. The old system of Carpet beating and shaking will free a carpet of loose dirt only, the dirt which has hardened the wool and defaced the colors as well as grease stains and coal smoke will not be removed

WE CAN POSITIVELY STATE.

No matter how old and soiled a carpet may be as long as the nap is not injured, the same can be restored to its original beauty.

Circulars and references of the many who have tested our process, can be had at the office No. 138 Thames Street, Newport.

Is the most powerful cleanser, strengthener and remover of Glandular Obstructions known to Materia Medica.

It is specially adapted to constitutions "worn down" and debilitated by the warm weather of Spring and Summer, when the blood is not in active circulation, consequently gathering impurities from sluggishness and imperfect action of the secretive organs, and is manifested by Tumors, Eruptions, Blotches, Boils, Pustules, Scrofula, &c., &c.

When weary and languid from overwork, and dullness, drowsiness and inertia take the place of energy and vigor, the system needs a Tonic to build it up and help the Vital Forces to regain their recuperative power.

In the heat of Summer, frequently the Liver and Spleen do not properly perform their functions; the Uterine and Urinary Organs are inactive, producing weakness of the stomach and intestines and a predisposition to billious derangement.

DR. WELLS'

EXTRACT OF JURUBEBA

Is prepared directly from the SOUTH AMERICAN PLANT, and is peculiarly suited to all these difficulties; it will cleanse the VITIATED BLOOD, strengthens the LIFE-GIVING POWERS, and REMOVE ALL OBSTRUCTIONS from IMPAIRED ENFEEBLED Organs.

It should be freely taken, as Jurubeba is pronounced by medical writers the most efficient PURIFIER, TONIC and DEOBSTRUENT known in the whole range of medicinal plants.

Orcutt's Reliable LIGHTNING RODS,

THESE rods have been in use more than thirty years, on the best buildings in the country, such as the Public Buildings of the City of Boston, and other cities and towns, many buildings of Harvard College, and other institutions of learning, Bunker Hill Monument, State House in Boston and Montpelier, Vermont, very many United States buildings, including Powder Magazines and Shell Houses from Maine to Virginia. Churches in all directions, as also all classes of dwellings, barns, etc., etc.

And in Every Instance Have Afforded Complete Protection,

although buildings with other rods have been injured or destroyed, and persons both injured and killed. Especially was this so the past season. This notice is to strengthen the confidence of those having Orcutt's Reliable Rods, and to solicit orders from those who wish to feel secure during thunder storms.

No solicitors employed. Orders received at office or by mail, and rods applied according to the requirements of each building. WM. A. ORCUTT,
